

Are you an Older Adult or a Caregiver for one? We want to hear what you have to say!

Join us for a Stakeholder Lab

What is a Stakeholder Lab?

A form of focus group where we will get feedback from you through a series of simple exercises.

Why are you doing this?

Aging By Design is a multi-year initiative to see what is possible when we create solutions with older adults and caregivers rather than for them.

What will I have to do?

All you have to do is show up and take part in the 90-minute session. You'll have fun and you'll help us to understand what is working for you and what isn't.
